D. E. O'KEEFE.....EDITOR AND PROPRIETOR

CARRYING MISSOURI IN WASHINGTON.

At intervals one or more Missouri Republicans turn up at the national capital to "do something" for the party in that State. When the solemn mission is duly extracted from its manifold wrappings it always simmers down into a factional squabble about some federal office. These self-accredited champions often deceive themselves into thinking that they have some relation to the cause of Republicanism, and always begin by assuring the President that they represent some powerful and peculiar crisis in the affairs of the party in Missouri. If they get what they want (say a $1000 postmastership), they congratulate the national authorities on having snatched the Republicanism of Missouri from the jaws of destruction. If they fail; they ponderously inform the President that they will not be personally responsible for the frightful consequences to the slighted Republicans of the fifth state in the Union. In that case the "delegation" returns embittered to stir up fresh faction and to keep a ceaseless vigil for vengeance on that "other crowd," both, by the way, being as alike as two peas. So many times have these insatiable hunters for patronage made the trip to Washington that it is in order to say they have established a "Missouri trail" on which a cloud of dust is always ascending. And that is all there is to the smoke of Republican conflict in Missouri—a dust kicked up by patronage hucksters.

When these saviors of Republicanism in Missouri next appear in Washington it would be well to hand them a copy of the Republican national platform and ask if they desire to enter points of objection. Their answer will be in the negative. The policies of the party suit them. They want the Panama treaty ratified. They are satisfied with prospective candidates. They most emphatically declare that Democratic administrations in the state have been corrupt and that a general house cleaning is needed. What, then, is their errand? Why to save the Republicans of Missouri from some awful debacle, of course. Are the Republicans of Missouri fighting about principles, candidates or state reform? Not at all; they are absolutely united in all these respects. Nevertheless, they must be rescued from some terrible emergency. Nowhere can this be effected except in Washington, and nobody can do it except the delegation in pursuit of the $1000 postmastership — that is, nobody except a second delegation bent on knifing the first. All of which must be extremely edifying to the national authorities, who sincerely desire to preserve Republicanism in Missouri, having been told, for a generation, that the only way it can be done is to hearken to the little fairy story of the office huckster.

For thirty years Missouri has been carried by the Republicans—in Washington. In Missouri the Democrats have carried it for that period. Would it not be a good idea to tell the next delegation that kicks up a cloud of dust and then rushes to Washington to call attention to it as a fatal portent, that the best place to carry Missouri is in Missouri? The industrious pilgrims who frequent the trail to Washington have about exhausted the proposition that the way to produce harmony in Missouri is to bestow all the places on some particular clique of office hucksters. There is harmony now in the party on all essentials. What the Republicans of Missouri need is steady, earnest work and intelligent organization right there in the state itself. The sort of "leader" that haunts Washington for patronage is the worst incubus with which the party contends. "Go home and do something in the State, and let that something be a Republican majority," is the proper observation to make to the visiting delegation. They might also be pointed to the fact that there are from Missouri fifteen Democrats, one Republican, with two Democratic Senators on top of that, in Congress, as the result of saving Missouri Republicanism in Washington on officehuckster basis.

A good way to settle the controversy would be for the Russian and Japanese navies to meet in the Suez canal and play a match game of ping pong.

Dr. A. F. Maine, late of New York, has rented offices in the Wahl building and will practice his profession. Dr. Maine is a graduate of a celebrated medical college of New York and has practiced for some years with great success. He has rented a cottage on Phelps street for a residence.

THE GRAND JURY.

It Recommends Economy and Finds Assessment Rolls All Right.

The Grand Jury completed its labors Tuesday afternoon and handed its report to Judge Buck, who discharged the jury after complimenting its members for their zealous work in the county's behalf.

The report was similar to those of preceding juries but is replete with suggestions to the Supervisors of the different districts in regard to more economical expenditures of county funds for road building. The jury further states that the roads, schools, jails, county farm, and public buildings, are kept in a clean and sanitary condition.

Accompanying this document is the report of Expert G. H. Rice who found the county books all in good shape. In this report special commendation is made of the orderly, neat manner in which the assessment rolls for the year has been arranged. The following acted as grand jurors: Jas. T. Casey (foreman), A. F. Otto (secretary), F. Miner, J. Jorgensen, John F. Bauer, J. C. Robb, M. F. Brown, M. H. Throwell, J. J. Hintz, J. F. Kerr, Walter Knight, E. M. Hanson, C. J. Hynding, B. F. Burke, W. H. Lipp, M. P. Dutra, H. G. Schultz, W. J. Plump.

Coast Counties Convention.

The next regular meeting of the Central Coast Counties improvement clubs will be held at Santa Clara February 18. These meetings have assumed a position of much importance in the minds of enterprising citizens of Central California and are looked forward to with a worthy interest.

Married at Sacramento.

Thomas F. Horn, formerly of this city, was married at Sacramento on the 4th instant to Miss Ida Tolman. Mr. Horn was employed in railroad work, but has given up that occupation to engage in mining.

On His Own Hook.

Rudolph Uhl, a capable and industrious young mechanic of Redwood has purchased John Brandrup's blacksmith and horseshoeing business at South San Francisco, and took possession of the shop yesterday afternoon. His friends here are confident that he will succeed in his new venture.

Corner Stone Laying.

At the last meeting of the Supervisors the following committee of local citizens was selected to outline a program for the celebration in connection with the laying of the courthouse corner-stone:

Hon. George H. Buck, Edward F. Fitzpatrick, L. P. Behrens, George C. Ross, A. D. Walsh, Dr. J. L. Ross, George H. Rice, W. J. Plump, F. S. Rosseter, Henry W. Walker, James T. O'Keefe, Archer Kincaid, F. H. Thorpe, Judge Hannon, members of City Council, the county officers and local newspaper men.

It is requested that the gentlemen meet the Supervisors next Monday morning at 9 o'clock to confer regarding the proposed celebration.

Pointed Paragraphs.

More Reclamation Work.

At last the marsh land is to be improved. A. Genochio and Frank Granger have purchased another 100 acres, and intend to reclaim their territory within a short time. In order to accomplish this an enormous dike is to be built, which will extend from Fingers Landing to the fish house, opposite the bay. It is planned to have this breakwater 25 feet in width. It will be three miles in length. It is also reported that Whitney intends to build a dike around his land to extend from San Mateo to the Fish House, connecting the local wall at this point. This is a total distance of about 15 miles. If the plan can be carried out many acres of valuable land will be reclaimed.

WAS ONCE A REDWOOD GIRL.

Riordan-Schafer Nuptials Solemnized in San Francisco.

John P. Riordan and Miss Amelia C. Schafer were united in marriage last Monday in San Francisco at the residence of the bride's sister, Mrs. J. H. Smith. The bride is the youngest daughter of Mrs. J. Schafer and our late fellow-townsman, August Schafer. The groom is head shipping clerk for the Santa Fe Company, by whom he has been employed for a number of years. Miss Adele Beauprann was bridesmaid and Charles Schafer, brother of the bride, best man.

The bride wore a smart traveling suit of blue. Mr. and Mrs. Riordan were the recipients of many handsome and useful presents. After the wedding breakfast the happy couple left for a short honeymoon trip to the central part of the State. On their return they will reside at No. 2024 Powell street, where Mrs. Riordan will be at home on Friday afternoons.

DEATH OF B. A. RANKIN.

An Old Pioneer Passes Away at the Soldiers' Home.

Yesterday afternoon P. P. Chamberlain received a telegram from ex-County Clerk Thompson at Santa Monica announcing the death of B. A. Rankin, an old pioneer of this county. The end came early yesterday morning. Mr. Rankin had been ailing for several years and went to the Soldier's Home at Santa Monica three years ago in the hope that the mild climate of the South would restore him to health. Mr. Rankin was one of the best known men in San Mateo county having come here in the fifties. When the Civil War broke out he joined a California regiment and went to Arizona where he did frontier duty for some time. After the war he came back to this county and engaged in various pursuits. Mr. Rankin was an honest, fair-dealing man, an upright citizen and a true friend, public-spirited and a man of high ideals. He took an important part in politics, and made a campaign for sheriff in the '80's but was defeated by Harry Hatch owing to some factional differences that existed in the Republican organization at that time. For many years he served on the school board of the Redwood City school district and was one of the trustees when the present grammar school was built. After the structure was completed he retired from the board. Mr. Rankin took an active interest in fraternal societies being Past Commander of General Geo. S. Evans Post, G. A. R., Past Master of Redwood City Lodge, F. and A. M., and Past Noble Grand of the local lodge of Odd Fellows. In early days he was known from one end of the county to the other, having always taken taken a keen interest in affairs, and was generous to a fault. Now that he has gone many old settlers will recall his kindness and generosity to those who needed assistance. Deceased was unmarried and leaves a niece, Miss Sadie Fry, to mourn him. He will most likely be buried in the cemetery at the Soldier's Home at Santa Monica.

Will Wed in February.

Miss Eva Cook, one of the most popular young ladies in Redwood City, will be united in marriage about the middle of February to Mr. Ellis Ensor of this place. The news of this approaching wedding does not come as a surprise as Mr. Ensor has been busily engaged during the past months in preparing a very pretty little home on the Robinson subdivision. Mr. Ensor is an employee of the Southern Pacific Railroad in the auditing department. He has resided here for two years and has gained a host of friends by his gentlemanly bearing and straightforward dealings. Miss Cook is the younger daughter of Mr. and Mrs. Alonzo Cook. She is a handsome, accomplished young lady, and takes a leading part in all of Redwood's social functions. She has a sweet soprano voice and for several years has been leading soprano in the Congregational church choir. May long life and happiness be theirs in their future wedded life. After the wedding the young couple will take a trip to El Paso and New Orleans where Mr. Ensor grew to manhood.

Had a Close Call.

M. Gilmore can thank his lucky stars that he retained Geo. C. Ross as his attorney in the preliminary examination which was held before Justice Cuningham in Judge Hannon's court room this week for the alleged larceny of two of James Curran's horses. The evidence was overwhelmingly against Gilmore. The horse was was found in his possession and he disclaimed all knowledge of the mate or the double harness, when Sheriff Mansfield arrested him, and on the stand it was clearly proved that he had had both in his stable. It was further shown that he had changed the appearance of the horse which he kept in every way possible. He clipped it, thinned it tail, with a sharp knife and docked its main. There seemed to be a clear case against him but Mr. Ross summoned such an array of prominent city business men to testify to the defendant's good character, and himself made such a logical, masterly address in behalf of his client that the court dismissed the charge against him. Klee and Meyer were held to appear before the Superior Court. District Attorney Bullock made a vigorous prosecution for the People.

FOR BITUMIN PAVEMENTS.

Citizens of San Mateo Are Making Preparations for Better Streets.

The city trustees of San Mateo directed City Attorney Charles N. Kirkbride on January 18th to prepare the necessary resolutions which will enable them to bituminize portions of C street and Second, Third, Railroad, Baldwin and Ellsworth avenues. These resolutions will be ready for presentation at the next meeting, bids will be advertised for and all preliminary legal work gotten out of the way by the time the weather breaks in the spring, so that nothing will remain to hinder the active work of paving when the time comes.

For many months the people of that city have been clamoring for improved streets. The macadam and gravel hitherto used have been very unsatisfactory, and it has reached a pass where all realize the imperative necessity of getting rid of the mud and beautifying the town. Several efforts to this end in the past were defeated by reason of conflicting interests, but now it is believed that all the people are united in a determination to secure these improvements. As soon as several streets are properly disposed of another lot will be taken up, until the entire town shall be made clean and every way more attractive. A movement is also on foot to extend the corporate limits to include the outlying territory which has become populated during recent years.

It would be a good scheme if Redwood would follow San Mateo's example and put in good streets.

The "Kilties" Coming.

Arrangements have been completed for the appearance here of the famous "Kilties" band from Bellville, Canada, in one of their unique and excellent concerts during the month of March next. The band numbers forty splendid musicians and sixteen singers, forming an excellent choir which sings the beautiful songs of "Auld Scotia," assisted by Mr. Andrew Lockhardt, the famous Scotch tenor soloist. Seven members of the band are instrumental soloists of fine reputation and there will be a vocal and instrumental solo at every concert on the tour. An extra attraction will be the "Clan Johnstone" troup of Scottish dancers direct from the Palace Theatre, London. This troup consists of two ladies and two gentlemen and their dancing is said to be a marvel of grace. The band will parade in their beautiful kilt uniforms with the Regimental Pipers an Buglers playing the true martial music of the Highlanders. A giant drum major (the tallest in the service) will head the parade. The repertoire of the organization is not confined to the melodies of Scotland but includes every class of composition from the works of Wagner to the popular "rag time."

ALLIE GLENNAN'S SAD FATE.

Full Particulars of the Tragedy—Burial Service.

The full particulars of the funeral of Allie Glennan were received this week by the sorrowing family, and while it saddens them to know that their loved one was buried so far away, their grief is somewhat assuaged to know that the last sad rites were performed so tenderly and lovingly as they were. The funeral was held at the little Waimea church yard on Saturday, and all of the white families in the District were present. As the casket was being lowered a young Englishman spread an American flag over the box and it was lowered into its final resting place. The quantittes of flowers and wreaths were so great that they completely covered the grave and the sorrow was as real as though the departed was a relative of every one present. Mr. Glennan was held in such high esteem that a public memorial was held the following Sunday, at which the leading men of the locality took part.

The following account of the tragedy appeared in the local paper, "The Garden Island":

The most cold blooded and atrocious murder that has ever occurred in this community took place at Makaweli Plantation on Friday evening last, the story of the horrible affair which was furnished us by J. A. Palmer is as follows:

"Mr. Glennan occupied the position of assistant to Mr. O'Shaughnessy, having general charge of the construction of the extension of the Makaweli ditch in the absence of his chief.

"He was known as a man absolutely without fear, and Mr. O'Shaughnessy is said to have made the statement some time ago that "deceased would never live to see the completion of the extension." In looking after the welfare of the various camps it became necessary to make several raids on the Japanese gamblers who infested the camps on paydays, the consequence being that Mr. Glennan became very much disliked by that desperate class of Japanese, and it is one of this crowd that is supposed to have taken Glennan's life—thirsting for vengeance because not allowed to rob his fellow countrymen.

"The tragedy took place in a small camp about three miles back of Mr. Cray's residence at about 9:30 in the evening; the whole camp was supposed to be asleep when there came a terrible explosion which was plainly heard at Makaweli, some miles distant. Mr. Glennan was sleeping in his tent alone and about sixty feet away from him was the tent occupied by the Japanese laborers, all of whom were badly shaken up, though none seriously injured. As soon as possible they ran to the scene of the explosion, when it was evident that it had occurred in Mr. Glennan's tent. It was blown to pieces and the body of the unfortunate victim had been blown twenty feet from his bed. The body was not mutilated to any great extent, one leg being broken, but death must have been instantaneous from the terrific force of of the explosion.

"It is supposed that some one of the gamblers seeking vengeance had stolen a piece of giant powder and fuse, camly waited until Mr. Glennan was first asleep, sneaked to his tent, deposited the explosive and lit the fuse. This theory is in a measure sustained by the fact that a piece of the fuse and caps were found near the scene of the murder and the further fact that the murderer had laid all of his plans to escape before committing the crime by cutting the telephone wires leading to the plantation office, well knowing that before news of the murder could be received at Makaweli he could be miles away. Mr. Baldwin stated that deceased was a man of fine qualities and held the good will and esteem of every one on the plantation, and it would be with the utmost difficulty that his place could be filled.

"The funeral took place from the plantation and deceased was buried in the church yard of the Waimea Foreign Church. The day was observed as one of mourning on the plantation and all of the many friends of deceased attended the last sad rite in a body, the services being conducted by Rev. Banham in a most impressive manner."

Caught the Wrong Fish.

Deputy Game Warden Ed Salnago of La Honda arrested Francesca Senbria on Tuesday for catching trout out of season in the La Honda creek. He was brought before Justice Hannon the same day, who promptly fined the miscreant $20. He paid the fine and promised not to offend again. This arrest will undoubtedly have a salutory effect, as many are known to have been fishing in the creeks on the other side of the mountains the year round, but it has not been the good fortune of the deputy to pounce upon them at the right time, although he is watchful in the performance of his duties.

The hero of the ball room is seldom known among bankers or lawyers. A light toe and a light head generally go together.

HIGH SCHOOL "DREAMS."

Breezy Zephyrs From Sequoia's Temple of Learning.

The Question For the Sequoia-Palo Alto Debate Has Been Decided.

In pursuance of the agreement entered into by representatives from Sequoia and the Palo Alto high school at the late meeting, the latter has submitted the questions of debate. They are: "Resolved that Rugby football should be eliminated from high school athletics," and, "Resolved, that it would be for the best interest of Californians to divide the State into two States, Northern and Southern California."

The Sequoia Union high school must consider but one of the above questions, and they have the privilege of supporting either the affirmative or the negative. The choice has already been made. It is conceded that the second question will be selected. This decision is due mainly to the fact that the contention regarding California offers a larger field of material; and also because it is judged to be of greater universal interest. Therefore, the question for the first Sequoia-Palo Alto debate will be: "Resolved that it would be for the best interest of Californians to divide the State into two States — Northern and Southern California." Sequoia has selected the negative side of argumentation.

***

It has been announced that a lawn and garden will connect the rear yard of the new high school building with that of the grammar school. In carrying out this plan the east fence has already been removed from the latter, and when the little park which is to connect the structures is completed, the argument that the high and grammar schools are separated will be obliterated.

The popularity in high school text books is subject to extreme diversity. This is especially true regarding Physic Manuals. At a recent visit to the local high school the State book agent stated that three-fourths of the high school pupils of California were now using Coleman's Physical Manual of the Laboratory. It was not so a year ago. At Sequoia Stone's Manual is found very satisfactory.

This is baseball season. Already inquiries are numerous as to whether Sequoia will put a team in the field this year, and in case the high school boys can get together they have a game waiting for them from a team composed of grammar school players and town material. The nucleus of old players upon which to found a team this year is very weak, and the new candidates are, with but few exceptions, inexperienced players. It is quite possible, however, that a nine may be organized.

Judging from those attractive looking pins worn by some of the members of the school it seems as if a fraternity has been formed; not at all. Perhaps they are merely borrowed from a Stanford "frat;" quite impossible. Well—wonder of wonders, the Senior class pins have arrived at last! Every member of '04 is now displaying, possibly to the envy of the other classes, a diamond-shaped ensigna, suggestive of the coming graduation. There is not a member of the class, however, who is not ready to claim that the '04 pin excels those of any of their predecessors. The back ground is of black enamel with S. U. H. S. '04 set off in gold; the rims are finely finished and present a really scintillating appearance. It has not been customary to get the class pins so early in the year, but the '04s are already preparing for that happy, but still so sad, event which shall separate them forever from Sequoia, their vernacular institution.

The result of the semester's work has been announced by the reports for the last five months. Some were made happy; others received—a pain. A few are wondering whether F means fair or failure, but there is not much discussion relative to what P means; it is of slight importance if it stands for either passed or perfect. It is the former that is causing the most worry.

The examiner! The first of the University of California representatives came, saw, and we hope, reaccredited the school on last Monday. It was thought by some that Sequoia would be listed upon last year's showing, but the worst is yet to come. Mr. Hall, the examiner, merely inspected the mathematical and scientific departments and promises that the classes in Latin, German and Spanish will be reviewed in a very short time.

***

L. M. Drew, formerly of the Fresno high school, has entered the Palo Alto high, where he will prepare for Stanford. It was first Mr. Drew's intention to matriculate at Sequoia, but he has chosen Palo Alto because of its nearness to the university. While at Fresno Drew was active in debating circles, and it is quite possible that he may be one of the Palo Alto speakers in the coming battle with Sequoia.

Mr. Miles is just recuperating from a severe illness which has seriously interfered with the pursuance of his duties. He continued the class work through the entire sickness, however, rather than have his pupils get behind in the work.

Miss Lily Maloney of Menlo has decided to give up her school work in spite of all contradictory reports.

Miss Grace Mills of Mountain View spent last Wednesday at Sequoia. She came as a visitor of Miss Lenora Lane of '04.

Professor Neidig of Stanford University visited the school on the 20th in order to inquire into the entrance subject regulations.

Arthur Dodge of the senior class has voluntarily enrolled for junior chemistry. Although Dodge has had the work before and already has the credit, he wishes to be well qualified in the work—his intended major at Stanford.

"Wine of Cardui is indeed a blessing to tired women. Having suffered for seven years with weakness and bearing-down pains, and having tried several doctors and different remedies with no success, your Wine of Cardui was the only thing which helped me, and eventually cured me It seemed to build up the weak parts, strengthen the system and correct irregularities."

By "tired women" Mrs. Adams means nervous women who have disordered menses, falling of the womb, ovarian troubles or any of these ailments that women have. You can cure yourself at home with this great women's remedy, Wine of Cardui. Wine of Cardui has cured thousands of cases which doctors have failed to benefit. Why not begin to get well today? Natural Result.

It is very reasonable to suppose if the foundation of a structure was removed that the building itself is bound to come down. This same principle can be applied to disease. Take a medicine into the system that will remove the cause of sickness, and the illness leaves of itself. Dyspepsia, indigestion, sick-headache and biliousness, have their foundation in stomach disorders. Remove the other symptoms are no more. There is one cure for this that all druggists sell for 25 cents per box, it is called Dr. Gunn's Improved Liver Pills. They get right at the beginning of the diseases and make the cure by taking away the cause of it. We will send a small box free by mail, or a large box on receipt of 25 cents. EAT WHILE THEY MOVE.

Chef Tells of a Peculiarity of Patrons of Dining Cars.

The chef on one of the Pennsylvania dining cars was particularly talkative the other day. The train was waiting for its Philadelphia passengers, and every table in the diner was occupied. The second call of Baltimore passengers were standing around the aisles waiting for vacant places. There was no little amount of dissension among those whose appetites had not yet been appeased. The diners seemed to be eating in a most leisurely fashion, with no apparent concern for those who were less fortunate.

"It's always the way," said the dark complexioned cook, glancing through the car. "When the train is running along those people will eat about twice as fast as they do ordinarily. But when she comes to a stop they start to talk and hardly touch a bite. It's the motion of the moving train that does it. Now, you just watch them and see if I'm not right."

Just then the train pulled out, and the observer saw a sight which firmly convinced him that his informant had spoken truthfully. Plates, knives and forks began to rattle industriously. Every one began to eat as if his life depended upon the next mouthful.

"Didn't I tell you so!" called out the grinning philosopher.

EMERGENCY RATION

A man has lived forty days without other food than his own fat.

Fat is man's emergency ration. The fat is stored in convenient hollows all over the body against the day of necessity.

Consumption makes heavy demand on the storage of fat. Nature uses fat to fight the disease. The crying need of the consumptive is fat.

Scott's Emulsion contains the best fat to be had, next to human fat itself. Scott's Emulsion is a natural substitute for human fat. It prevents waste. It furnishes the consumptive with nature's own weapon for fighting the disease.

Twenty Years Trial.

There are lots of good things the doctors know nothing about. We frequently cure people of disease after the doctors have given them up. If the disease comes from overwork, dissipation, or exposure, causing weak and watery blood, and loss of flesh and strength, we have the one sure remedy in Dr. Gunn's Blood and Nerve Tonic. These tablets taken with meals turn the food into rich red blood, making strong steady nerves, and increasing the strength, building up solid flesh at the rate of 1 to 3 pounds a week. This means health. For nervous prostration, loss of memory, or a pale, sallow complexion, a better remedy was never made. Doctors know nothing about this remedy only the fact that we make cures; as we have been doing this for twenty years we know our method to be the right one. Druggists sell Dr. Gunn's Blood and Nerve Tonic for 75 cents per box, or 3 boxes for $2, or sent by mail, on receipt of price. Write us for a pamphlet telling all about this great medicine. Address Dr. Bosanko Medicine Company, 128 S. Sixth street, Philadelphia Pennsylvania.
